# SHARE YOUR KIDSAVE STORY.

Can you believe it's been 25 years since Kidsave first started helping older kids in foster care and orphanages find loving, supportive families? To celebrate we're asking ALL our Kidsave families to join in the celebrations and share a short video update - this includes you!

We'd love to hear what you're up to and how being a part of the Kidsave community has changed your life.

You can shoot as a family or by yourself.

Here's some sample scripts to help inspire you. Feel free to tell your own story as you like. Just make sure to **speak slowly, and clearly, and film in a quiet place.**
